

Retiree's Report – June 2014

Green Shield is finally replacing the paper cards with strong synthetic paper. Within the next few months anyone being reissued a new card whether it's for dependent changes, lost cards or replacing old cards will receive the new and improved card.

Green Shield has expanded their provider online claim submission service to include:

Chiropractors

Podiatrists

Naturopathic doctors

Speech therapists

Counselling service providers

This was in addition to chiropractors, massage therapists, vision care providers, and medical equipment suppliers who could already submit claims online. Physiotherapists and acupuncturists can also submit claims unfortunately; we don't have the coverage for them. Your provider can submit your claim directly to Green Shield once they have registered. Your provider can also request the payment to go to them or to you.

I hope everyone has a wonderful summer.
